LOOKING FOR A CONTAINER TRANSPORT SOLUTION

You probably already know that time is essential and the accuracy of delivery is a vital component when shipping your containers overseas. When disruption happens your containers can get stuck – either at a port or at a terminal – for a very long period of time. In the end you can even be held accountable for the delays.

Did you know that we can actually support you each and every day of the week by shipping your containers via our route on Gothenburg-Kiel and Rostock-Trelleborg to or from Sweden, reaching Gothenburg, Southern Sweden and the Eskilstuna/Stockholm area?

The lead time to/from Hamburg to Gothenburg is 24 hours only and 48 hours to/from Hamburg to Eskilstuna/Stockholm.

Together with an external partner we offer daily shuttle service to and from the ports in Hamburg and Bremerhaven as well as Billwerder.

Regardless of whether you ship one, a few or even several units you can always count on a fast, reliable, and cost-effective handling and management of your shipments.
